

APPENDIX A

CODE OF ETHICS OF ENGINEERS

The Fundamental Principles

Engineers uphold and advance integrity, honor and dignity of the engineering profession by:

- 1) using their knowledge and skill for the enhancement of human welfare;
- 2) being honest and impartial, and serving with fidelity the public, their employees and clients;
- 3) striving to increase the competence and prestige of the engineering profession; and
- 4) supporting the professional and technical societies of their disciplines.

The Fundamental Canons

- 1) Engineers shall hold paramount the safety, health and welfare of the public in the performance of their professional duties.
- 2) Engineers shall perform services only in the areas of their competence.
- 3) Engineers shall issue public statements only in an objective and truthful manner.
- 4) Engineers shall act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.
- 5) Engineers shall build their professional reputation on the merit of their services and shall not compete unfairly with others.
- 6) Engineers shall act in such a manner as to uphold and enhance the honor, integrity and dignity of the profession.
- 7) Engineers shall continue their professional development throughout their careers and shall provide opportunities for the professional development of those engineers under their supervision.
